

The ALL-NEW Traveler 4.0 Sewer Inspection Camera is here.

The Spartan Tool Traveler 4.0 Sewer Inspection Camera is an upgraded all-in-one camera for the toughest of customers.

The Traveler 4.0 from Spartan Tool brings you the same compact, portable size as with previous models, but features upgraded and improved components. Plus, the Traveler 4.0 has a push rod that is more flexible and durable than before, featuring a removable reel to allow you to swap out reels while you are out in the field fast and without problem. With the Traveler 4.0, you get an upgraded camera head with high-intensity LEDs in your standard package. However, we also offer an outstanding line of customizable camera heads that are easily interchangeable to provide you with that extra bit of flexibility. With upgraded interior electronic components that are engineered and built to stand up to a wide array of harsh environments and deliver you better accuracy and resolution, the Spartan Tool Traveler 4.0 Sewer Inspection Camera takes your sewer inspection game up to the next level.

FEATURES

- Stronger yet thinner profile push rod with a removable, replaceable reel for quick changes in the field
