

Powering the Future of Drain Cleaning with Compact, All-Electric Innovation

Compact, 100% electric jetting machine designed to make eco-friendly drain and sewer cleaning. The eUrban Soldier is designed for clearing lines up to 12" inches using 3000 PSI and 10 GPM. Its 17 kW/h battery pack allows up to 1 hour of operation on a single charge, handling 8-10 water tank refills before needing to recharge. Its zero emissions make it suitable for indoor use, and its easy maintenance translates to substantial savings. Embrace the future of clean and zero emissions with the eUrban Soldier.

SPECS

- Pipe sizes: up to 12" diameter
- Pressure: 3000 PSI
- Flow: 10 GPM
- Standard hose: 262' of ½" cleaning hose; 115' of ¾" filling hose
- Weight: 970 lbs empty
- Size: 49"L x 41"W x 43 ½"H
- Electric drive motor
- Pulsator: Yes
- Power Source: 3 x 5.8 kWh batteries
- Tank capacity: 105 gallons, expandable to 2 x 105 gallon tanks
- Frame: metal frame
- Control System: eControl Plus Control Box
- Radio mode: 7-channel, 915 Mhz remote
- Warranty: (2) year limited warranty

FEATURES

- Speck/Giant P45 pump delivers 3,000 PSI at 10 GPM
- Electric hose reel controls with speed regulator
- Reel accommodates up to 262' of ½" high pressure hose
- Near silent operation
- 3 x Powerful Lithium Ion batteries
- Approx. 10 full tanks of water off a single charge (subject to operating conditions)
- One 105 gallon tank
- Van types: Chevrolet Express, GMC Cargo, Ford Transit (medium height)
- 7-channel radio, 915 Mhz radio remote control
- eControl + control panel with LCD display
- Hose length counter
- Remote control

SAFETY

- Speck/Giant Unloader Valve System
- Run dry pump protection
- System reset upon safety activation
- Emergency remote stop
- Protective covers in red

OPTIONAL ITEMS

- Extra water tanks
- Antifreeze tank with circulation
