

Welcome to the future of environmentally friendly high pressure drain & sewer cleaning.

100% electric and emission-free, the eUrban Warrior ensures no power or performance loss. With a design tailored for clearing lines up to 18 inches using 2320 PSI and 20 GPM, this unit features 6 5kWH batteries. A fully charged battery can last a full working day or more, depending on operating conditions. Its zero emissions make it suitable for indoor use, and its easy maintenance translates to substantial savings. Embrace the future of clean and green solutions with the eUrban Warrior.

SPECS

- Pipe sizes: up to 18" diameter
- Pressure: 2320 PSI
- Flow: 20 GPM
- Standard hose: 360' of ½" cleaning hose; 115' of ¾" filling hose
- Weight: 1,521 lbs empty
- Size: 63 ½"L x 49"W x 47 ½"H
- Electric drive motor
- Pump: Triplex Plunger Pump
- Pulsator: Yes
- Power Source: 6 x 5kWH batteries
- Tank capacity: 160 gallons (2 x 80 gallons), expandable
- Frame: steel, powder coated
- Control System: eControl Plus Control Box
- Radio mode: 9-channel, 915 Mhz remote
- Warranty: (2) year limited warranty

FEATURES

- Speck/Giant P45 pump delivers 2,320 PSI at 20 GPM
- Pivoting 180° hose reel
- Electric hose reel controls with speed regulator
- Reel accommodates up to 360' of ½" high pressure hose
- Near silent operation
- 6 x Powerful Lithium Ion batteries
- Approx. 10 full tanks of water off a single charge (subject to operating conditions)
- Two 80 gallon water tanks
- Van types: Chevrolet Express, GMC Cargo, Ford Transit (medium height)
- 9-channel radio, 915 Mhz radio remote control
- eControl + control panel with LCD display
- Hose length counter
- Remote control

SAFETY

- Speck/Giant Unloader Valve System
- Run dry pump protection
- System reset upon safety activation
- Emergency remote stop
- Protective covers in red

OPTIONAL ITEMS

- Extra water tanks: 4 x 80 gallons (instead of 2 x 80 gallons)
- Antifreeze tank with circulation
- Available pump delivers 3,000 PSI at 16 GPM
